

A close-up photograph of a person's hands, cupped together, holding a large quantity of golden wheat grains. The person is wearing a dark blue button-down shirt. The background is a blurred field of golden wheat under bright sunlight.

A licensed farmer to farmer seed trading scheme, making it easy for every grain grower in Australia to enjoy access to AGT varieties.

We are passionate about getting new genetics into the hands of farmers who can benefit from it. One of the ways we have made seed available to growers faster and cheaper is through Seed Sharing™.

An initiative first developed by AGT, Seed Sharing™ is a low cost way of introducing our improved genetics into your program. Seed Sharing™ is a licensed farmer to farmer trading scheme whereby grain of selected AGT varieties may be traded between farmers to use as seed.

Farmers who have grown a crop using commercial seed purchased from a recognised seed retailer or AGT Affiliate may sell seed to another farmer at a price or arrangement negotiated between them, providing they complete an AGT Seed Sharing™ License Agreement form. End Point Royalties are not charged on seed sold through Seed Sharing™.

Seed Sharing™ is allowed in all states of Australia for all AGT wheat, triticale and durum varieties except Clearfield® Plus wheat varieties.

For the full terms and conditions and to download the AGT Seed Sharing™ License Agreement visit: agtbreeding.com.au/sourcing-seed/seed-sharing

For further information regarding AGT Seed Sharing™, please contact the AGT End Point Royalty Office at epr@agtbreeding.com.au or on (08) 8313 6810.
